LED SMART MIRROR

Tengzhou Yoway Electronic Technology Co., Ltd
Yushuo Group

ABOUT US

COMPANY PROFILE

Yoway Electronic Tech Co., Ltd. is a leading manufacturer and exporter of Bathroom Mirrors. Since 2010 we have partnered with leading distributors, super markets, project contractors and importers across the globe. Our interior decoration, bathroom mirrors and engineering projects are well-known worldwide. With its operation based in Shandong Province, China, Yoway Electronic products are an outcome of innovative, high quality and efficient manufacturing process. We are capable of offering flexible and suitable solutions as part of our customer service. Our R&D department makes sure that we have a constant supply of new innovative products as well as provide customized solutions for hospitality projects.

Our manufacturing unit covers 7000 SQM of effective floor space, filled up with state of the art technology and machines being part of a constant improvement processing to keep our products in the top-edge of the market. Our manufacturing process complies with UL, cUL, CE, UKCA, RoHs and ISO9001:2015 certification guidelines.

Our multi step verification and quality check during and after production ensures we filter out problems at early stage thus making the complete process faster, defect-free and efficient.

We constantly participate in hospitality, construction, and other industry related exhibitions. Engaging our sales managers on business trips, meeting customers and getting real insights of the market keeps us on top of the line.

LED Lighting

Cool/Natural/Warm

Correlated Colour Temperature (CCT) is a concept that provides seamless transition through the full spectrum of temperatures ranging from warm, through to natural and then to cool white light. This allows you to mimic outside lighting conditions with precision - a feature that has been scientifically proven to have a positive impact on our health.

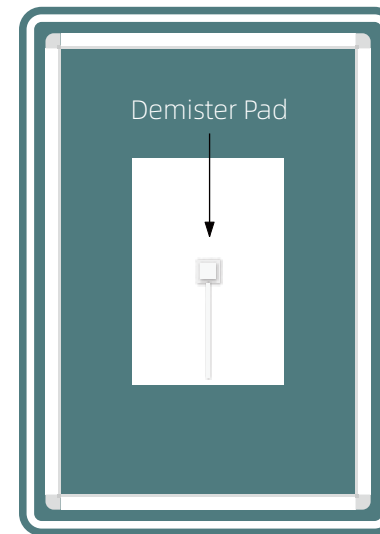

Demister

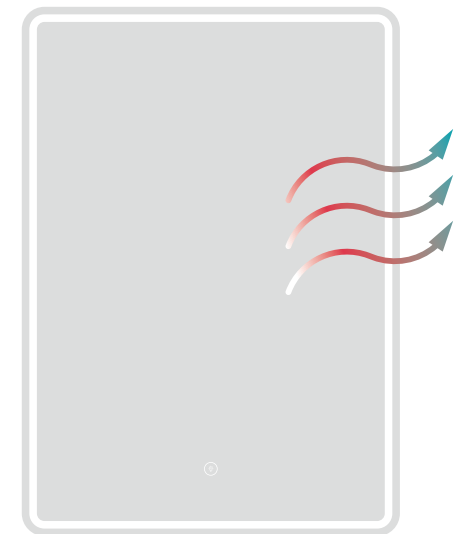

Steam free technology

Integrated demister pads are an ultra-thin layer, mounted on the back of the mirror glass. When activated, they gently warm the adjacent portion of the mirror to eliminate condensation formation and clear the glass.

- Removes the need for wiping down
- Less condensation and damp
- Efficient lifestyle routine for people on the go
- Clear for shaving and getting ready
- Mirror stays looking good with less watermarks

BACK VIEW

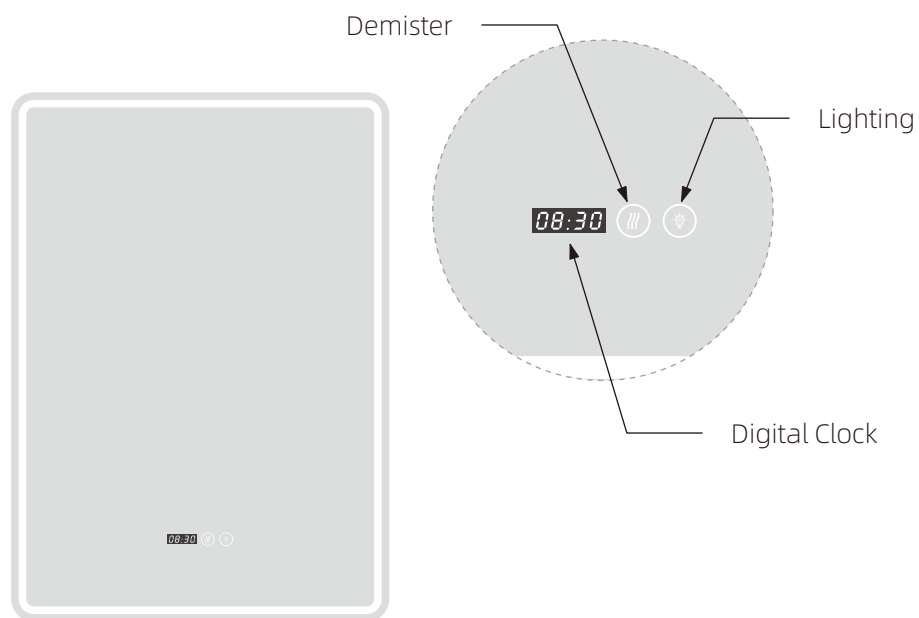

FRONT VIEW

Digital Clock

Clock display + Lighting + Demister

We usually lose our perception of time while in the bathroom, because we relax too much or spend time cleaning the mirror from fog, this can make us late for important meetings and dates. By including an accurate, programable digital clock display on your favorite led mirrors, you'll never be late again and you won't be needing to spend time cleaning your mirrors over and over again.

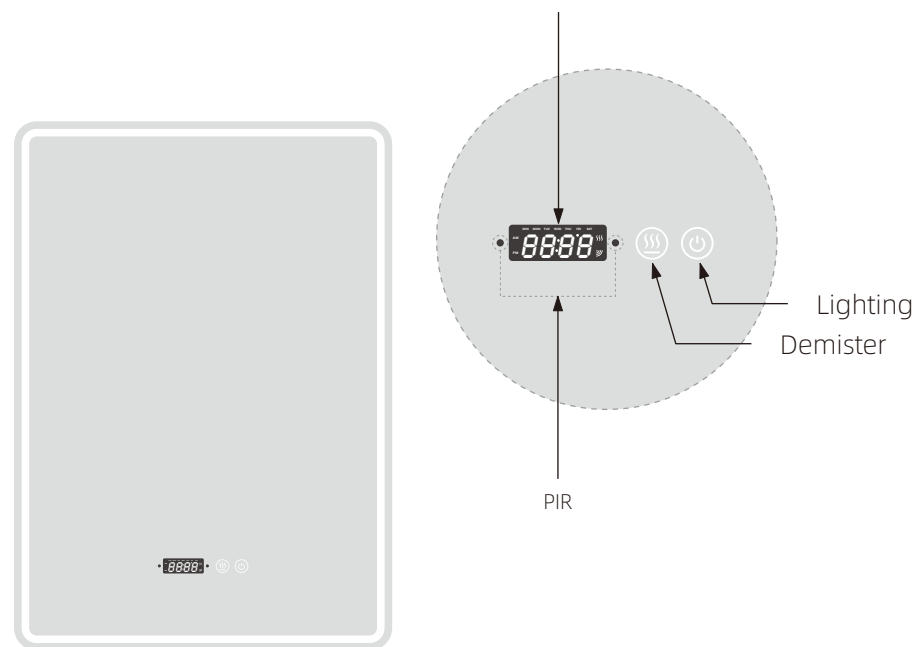

Digital Screen

Date & Time + Temperature + Lighting + Demister + PIR Sensor

Enhanced display that not only shows the time, but also displays the date and temperature in the room, the most useful information needed for your every day routine.

Digital Screen (Date & Time/ Temperature)

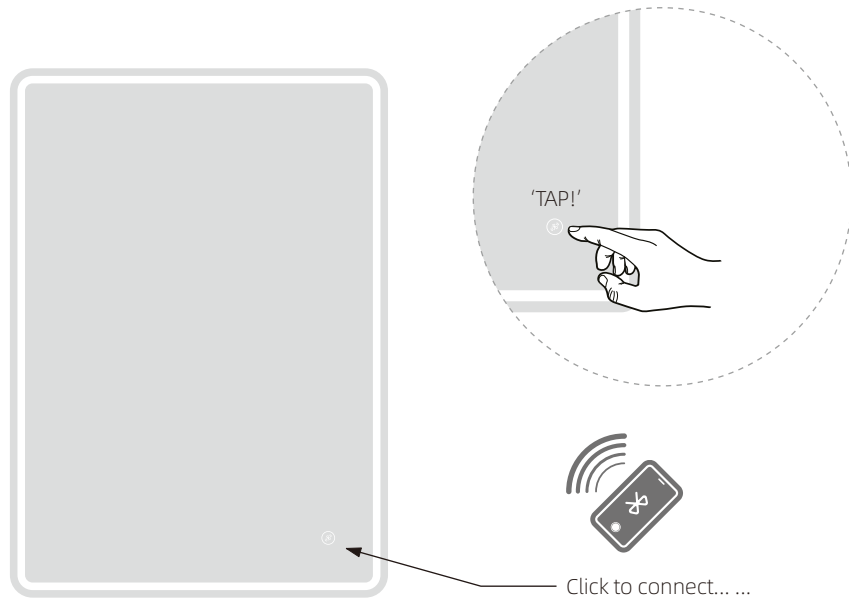

Bluetooth

Connecting bluetooth devices

Your favorite tunes, podcast and audiobooks at the tap of your finger! With our in-built bluetooth mirrors you can give life back to your bathroom! Powered by a high range, specifically designer for bathroom use bluetooth sensor, you can have a seamless experience when connecting the mirror, playing your favorite music or even receiving calls.

Bluetooth range is up to 5 meters distance, recommended for bathroom use only.

Bluetooth Speaker

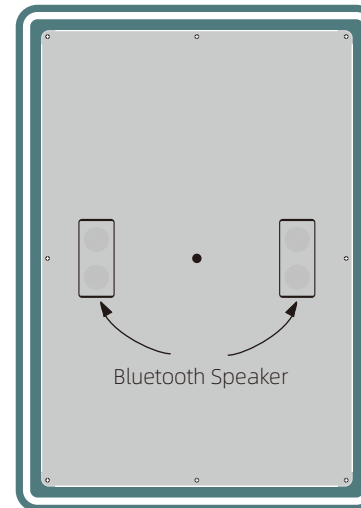

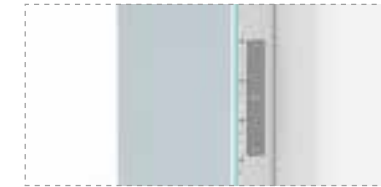

Integrated speakers for audio playback

Yoway Bluetooth Mirrors come with high fidelity stereo speakers, producing robust bass and accurate sounds at higher levels, we also enhanced the sound experience by offering two different speakers positions depending on your needs, rear speakers and side speakers for a more direct sound.

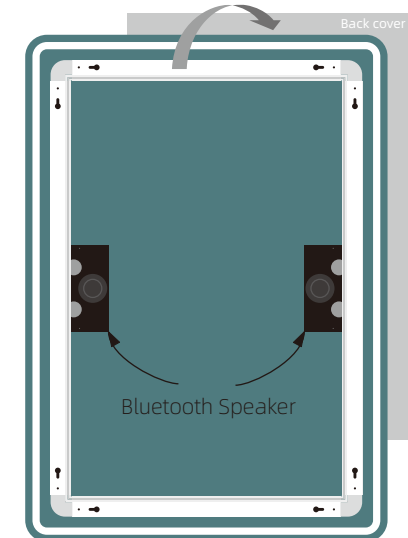

Type1:Rear speaker

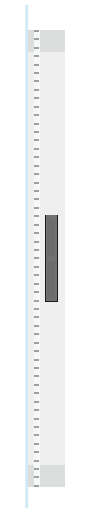

Type2: Side speaker

SIDE VIEW

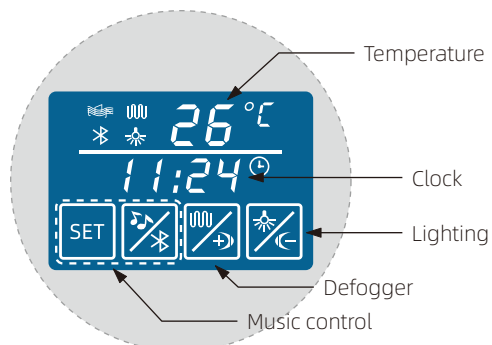

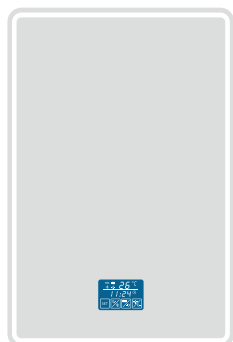

Music screen

Control every aspect and function of your mirror directly on the surface, our Digital Screen options bring custom functions and display essential information, such as:

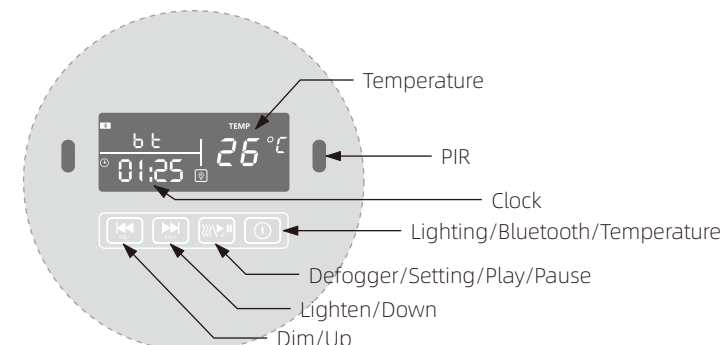

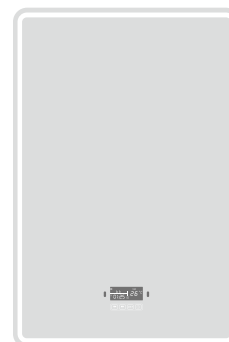

- Turn on/off Demister and Lights
- In-built temperature indicator
- Skip songs, control speakers volume
- In-built digital clock
- In-built bluetooth connectivity switch
- Weather forecast and much more!

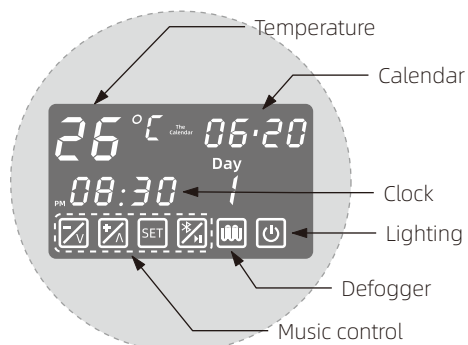

The weather WIFI screen

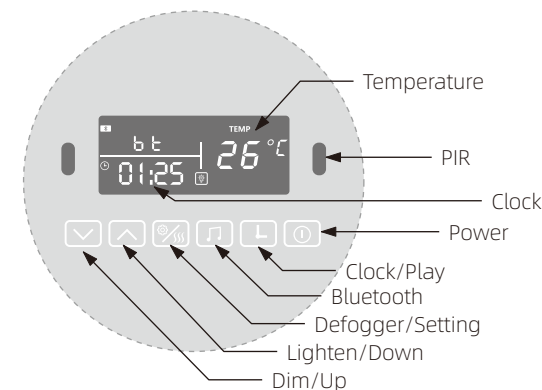

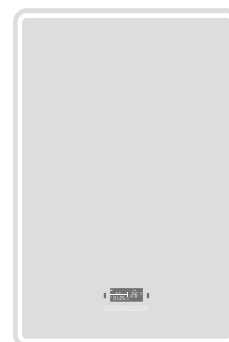

Four-button Bluetooth screen

Four-button sensor screen

Six-button Bluetooth screen

Six-button sensor screen

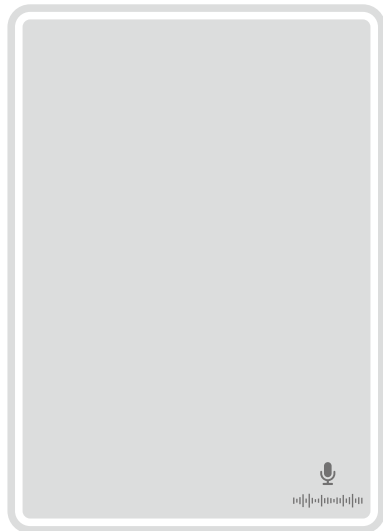

Automatic Speech Recognition

Speech recognition module

Program your mirror to be turned on/off with keywords!

The mirror recognizes specific programable words to control the lights making it easier to use when busy shaving, brushing your teeth or even when you are not near in the room.

UV Disinfection

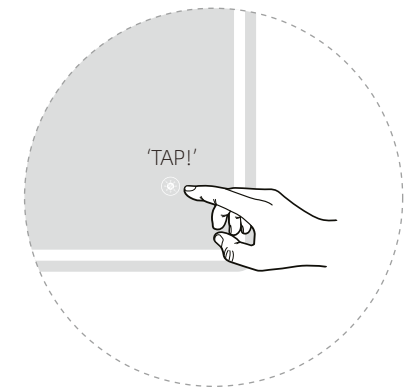

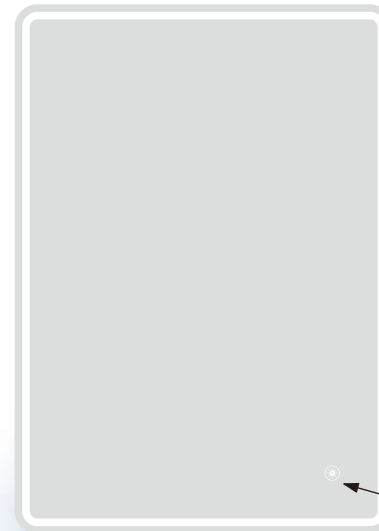

The UV disinfection lamp life of more than 5500 hours of work

UV Led Mirror Series come with in-built UV Light to sterilize all vanity and basin area.

Keep your environment free of virus, bacteria and germs.

Additional sensors incorporated for a touchless experience.

Ideal for: Hotels, Public Bathrooms, Restaurants, Bars, guest rooms, etc.

Click to open... ..

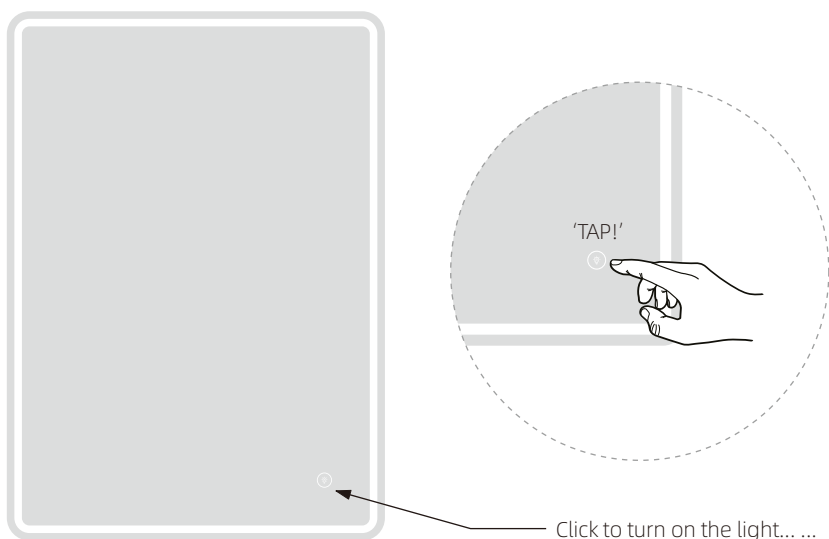

Touch Sensors

Touch shape can be customized

Touch sensors are incorporated seamlessly into the glass surface and illuminate when active. Advanced lighting features may be controlled either by additional sensors or simply via one multi-touch sensor.

- Seamless design
- Minimal contact
- Simple control
- Multi-functional

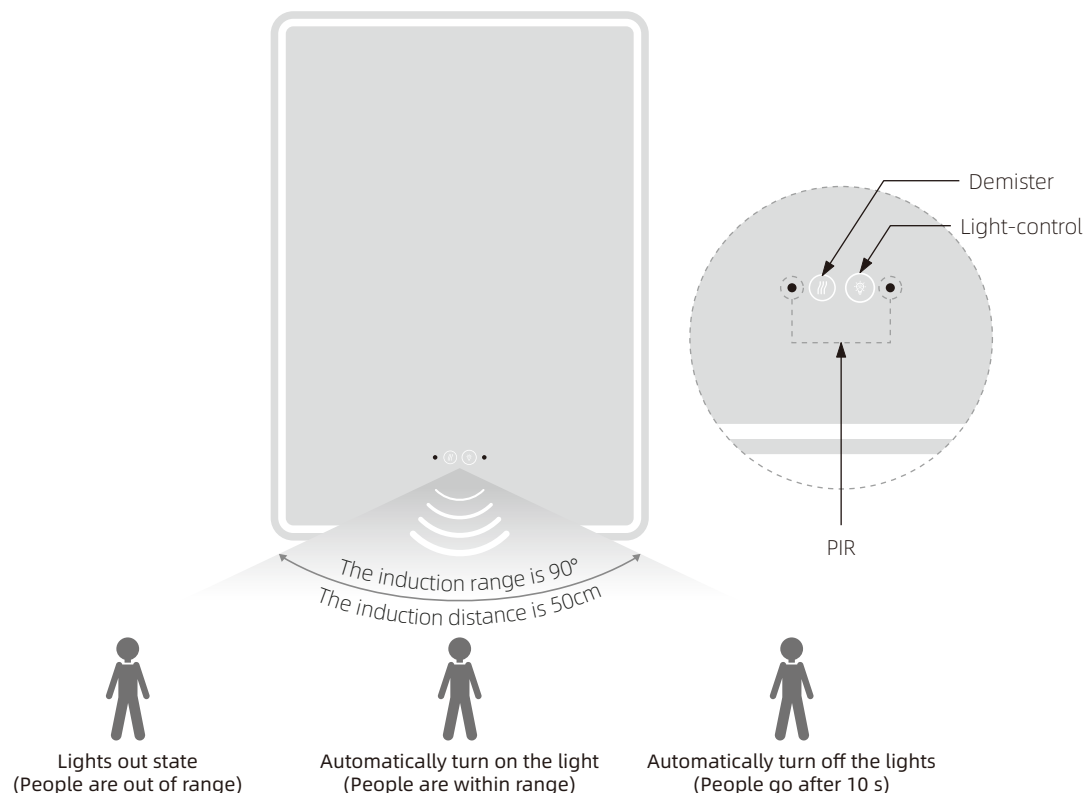

PIR Sensor

Motion activated

Activate the mirror by just walking into the room!

Part of our automated bathroom solutions, our PIR sensor knows exactly when you need the lights to turn on and it activates the mirror automatically by gently lighting up the room, this comes specially useful at night when it's harder to find the switches and easier to get dazzled.

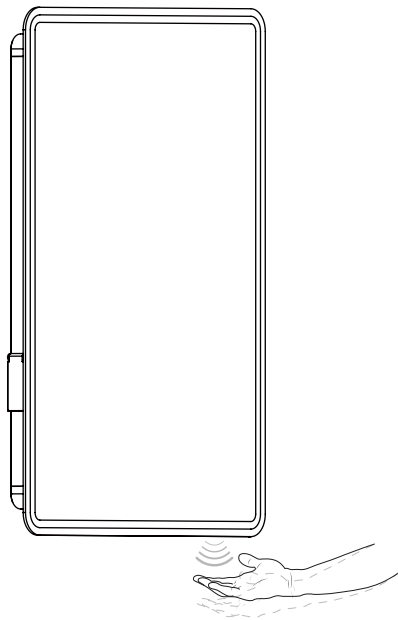

Infra-red Sensors

Swipe activated

Infra-red sensors are simply activated by a swipe of the hand. Advanced features, such as dimming and colour control, where available are operated by hovering the hand near the sensor.

- Naturally increased hygiene in your daily routine through minimal contact and contamination
- Safety near wet zones with no electrical contact risk
- Discreet control allowing seamless appearance in design
- Less cleaning and maintenance - no fingerprints or smears

Simply swipe hand below the infra-red sensor

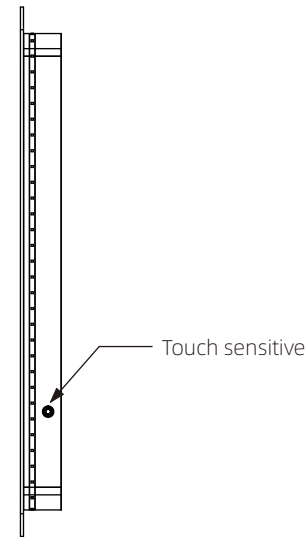

Infra-red Sensors

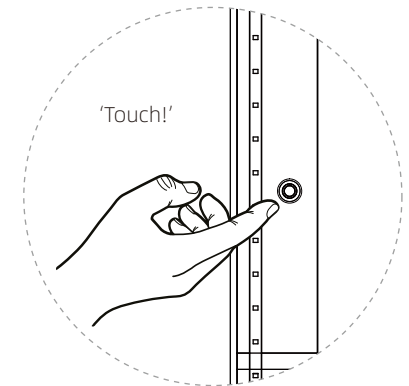

Touch sensitive switch

High quality switch, good feeling, touch sensitive

Designed for customers that want a clearer look and minimalistic design on their bathroom surfaces, the touch sensitive switch is placed on the side of the mirror, and prevents the mirror surface from getting oily or dirty by daily use of the switch.

SIDE VIEW

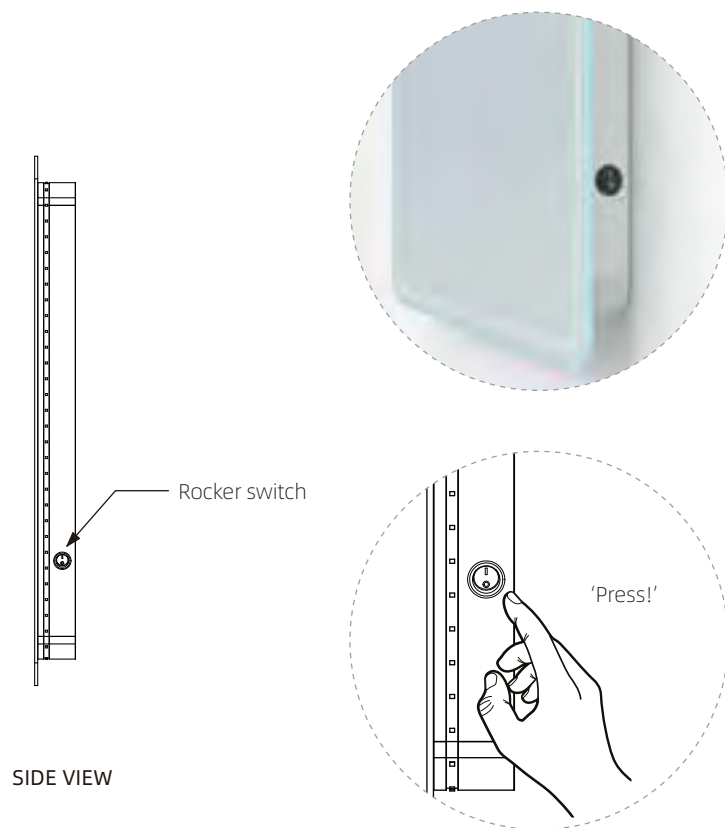

Rocker switch

Circular design

Rocker switch to control additional features, strong, durable and reliable switch.

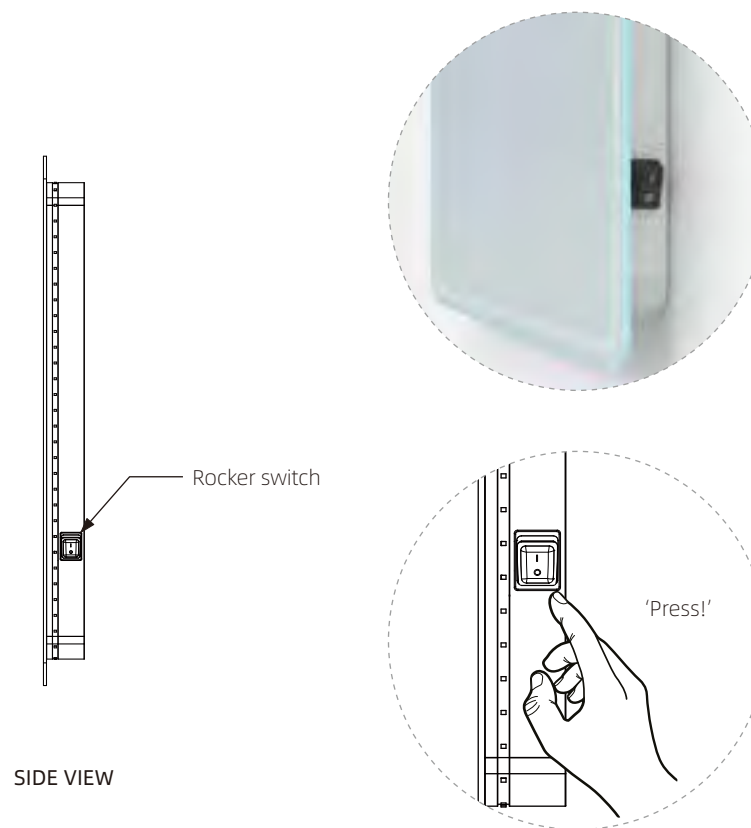

SIDE VIEW

Rocker switch

Square design

Made by using special Silica gel seal and waterproof components inside the switch. The square design has a smoother transition when pressing it, making it easier to use and more satisfactory than the circular design.

SIDE VIEW

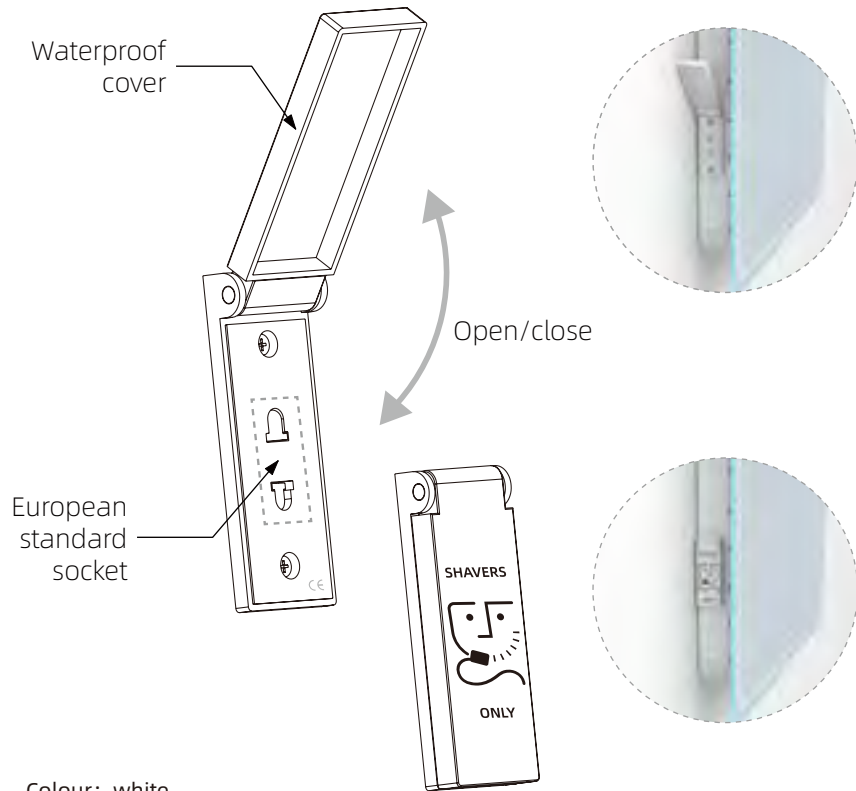

Note: This switch applies only to RLA199 profiles

Shaver Socket

Charging socket for shavers and toothbrushes

Open the protective case to access the shaver socket ports

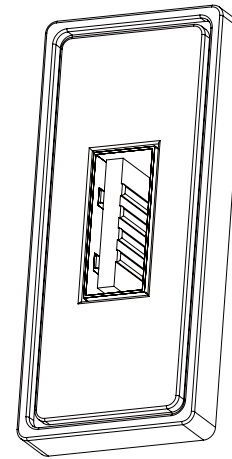

Colour: white
Voltage: 220V-250Vac
Size: 22*76*11mm

USB Port

Charging mobile devices

Colour: Black
Voltage: 5V/2.1A
Size: 20*15*25mm

Model: UV-15

SPECIFICALLY DESIGNED TO DISINFECT BATHROOMS

Features:

- UV-C radiation is a known disinfectant for air, water and surfaces that can help mitigate the risk of acquiring an infection and has been used extensively for more than 40 years.
- All bacteria and viruses tested to date (many hundreds over the years, including various coronaviruses) respond to UV-C disinfection.
- In laboratory testing, UV-C light sources inactivated 99% of SARS-CoV-2 virus on a surface. A clear indication that UV-C light can play a valuable part in your protection strategy.
- UV-C is found within 100-280 nm range.
- Our uv led mirror series, works automatically for periods of one hour.
- When motion is detected, UV light automatically turns it-self off.

OPTICAL PARAMETERS:

IP RATED	65
RADIATED POWER	>30mW
WAVELENGTH OF LED CHIPS	UVA: 390-410NM UVC: 275-285N M
STERILIZATION AREA	1.2 M2
