ABOUT US

COMPANY PROFILE

Yoway Electronic Tech Co., Ltd. is a reputable and distinguished manufacturer and exporter of premium quality bathroom mirrors. We have been providing our exceptional products to top-tier distributors, supermarkets, project contractors, and importers worldwide since 2010. Our expertise in interior decoration, bathroom mirrors, and engineering projects has earned us a renowned name in the industry.

Our manufacturing operation is based in Shandong Province, China, where we utilize innovative, high-quality, and efficient manufacturing processes to create our exceptional products. At Yoway Electronic, we pride ourselves on delivering flexible and tailored solutions to our customers as part of our unparalleled customer service. Our dedicated R&D department ensures that we have a constant supply of new innovative products while also providing customized solutions for hospitality projects.

With an 8500 SQM manufacturing unit equipped with state-of-the-art technology and machines, we consistently strive to stay ahead of the competition. Our manufacturing process is in compliance with CCC, UL, cUL, CE, UKCA, RoHS, KC, IP44, and ISO9001 certification guidelines. We also have a rigorous multi-step verification and quality check process during and after production to ensure that we filter out problems at an early stage, making the entire process faster, defect-free, and efficient.

At Yoway Electronic, we are constantly engaged in hospitality, construction, and other industry-related exhibitions, with our sales managers regularly attending business trips to meet customers and gain real insights into the market. With our commitment to quality and innovation, we are confident that we will continue to provide exceptional bathroom mirrors and engineering solutions to our customers worldwide.

PART 1

NEW
RANGE 2023-2024

OPTIONAL FUNCTIONS

In Part 1, we have listed all the optional functions that our mirrors come equipped with, such as Bluetooth connectivity, motion sensors, temperature display, and more. These optional functions make our mirrors not just a reflection of your image, but also a smart and functional addition to your space.

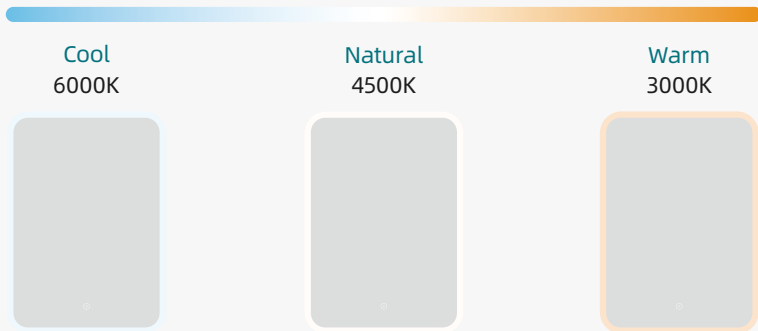

BATHROOM

LED Lighting

Correlated Colour Temperature (CCT) is a concept that provides seamless transition through the full spectrum of temperatures ranging from warm, through to natural and then to cool white light.

Cool white LEDs combine well with modern, bold and minimal themes and are great for task lighting and creating a bright and revitalising environment.

Natural white sits between warm and cool white and recreates the effect of natural daylight. Natural white's versatility means it can complement a range of bathroom styles.

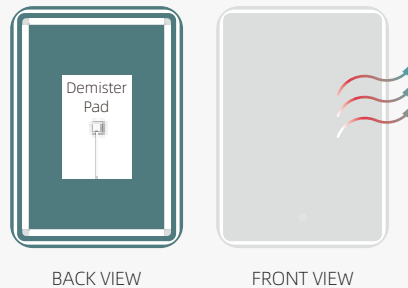

Warm white LEDs have a yellow tone and complement bathrooms featuring wooden surfaces and flooring. They also create a warm, relaxing ambience perfect for relaxing.

Demister

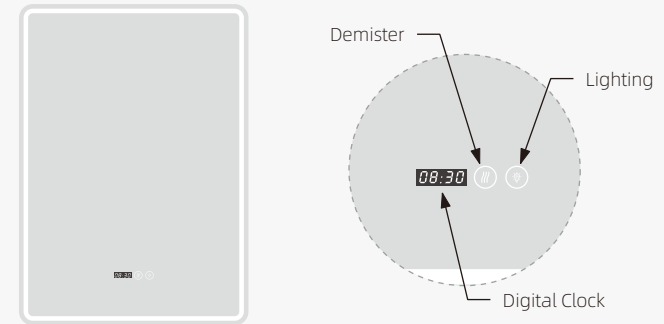

Integrated demister pads are an ultra-thin layer, mounted on the back of the mirror glass. When activated, they gently warm the adjacent portion of the mirror to eliminate condensation formation and clear the glass.

- Removes the need for wiping down
- Less condensation and damp
- Efficient lifestyle routine for people on the go
- clear for shaving and getting ready
- Mirror stays looking good with less watermarks

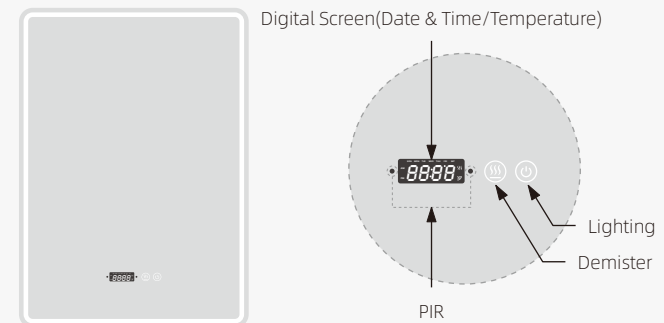

Digital Clock

Do you often find yourself losing track of time while in the bathroom? Whether it's because you're taking too long to relax or wiping off the fog from your mirror, it can be frustrating when you're running late for important appointments or dates. To solve this problem, we offer a range of LED mirrors that come equipped with an accurate, programmable digital clock display. With this feature, you'll never be late again and won't have to spend time constantly cleaning your mirror.

Digital Screen

Enhanced display that not only shows the time, but also displays the date and temperature in the room, the most useful information needed for your every day routine.

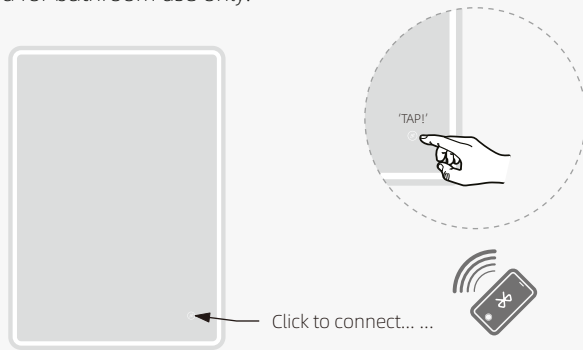

Bluetooth

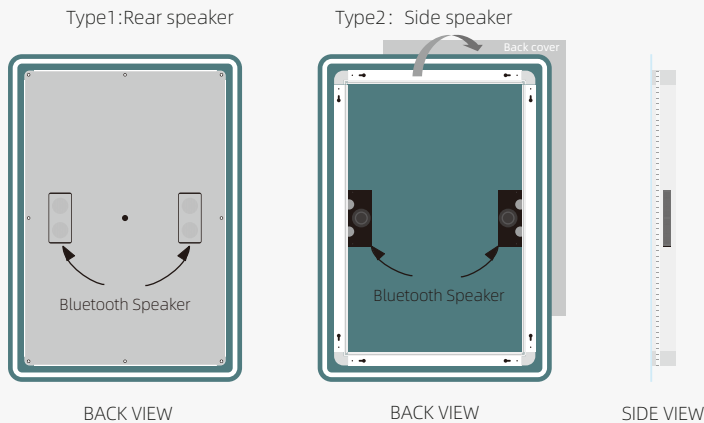

Say goodbye to boring, silent mornings and hello to your favorite tunes, podcasts, and audiobooks at the tap of your finger! With our range of in-built Bluetooth mirrors, you can give your bathroom a new lease of life.

Bluetooth range is up to 5 meters distance, recommended for bathroom use only.

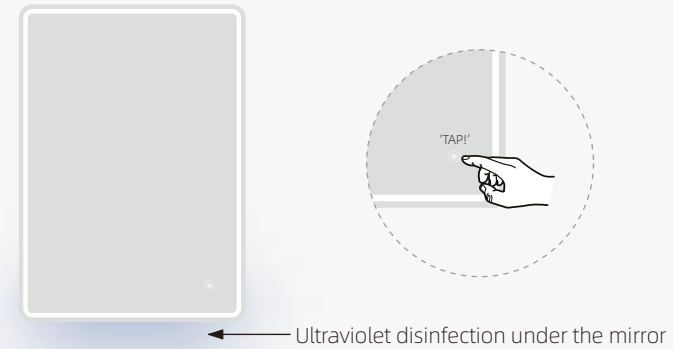

Bluetooth Speaker

Experience high-quality audio like never before with Yoway Bluetooth Mirrors! Our mirrors feature high-fidelity stereo speakers that produce robust bass and accurate sound at higher levels.

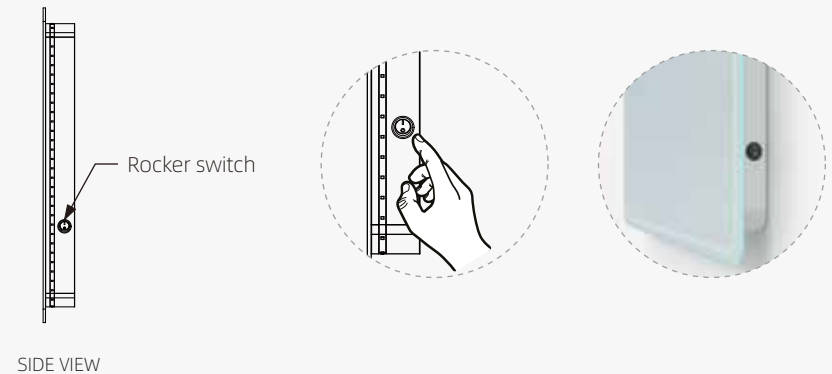

UV Disinfection

UV Led Mirror Series come with in-built UV Light to sterilize all vanity and basin area. Keep your environment free of virus, bacteria and germs. Additional sensors incorporated for a touchless experience. Ideal for: Hotels, Public Bathrooms, Restaurants, Bars, guest rooms, etc. The UV disinfection lamp life of more than 55000 hours of work

Rocker switch

Our mirrors feature a robust and reliable rocker switch that makes it easy to control additional features and customize your mirror to suit your needs.

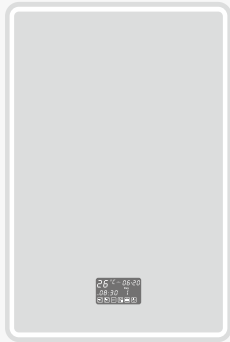

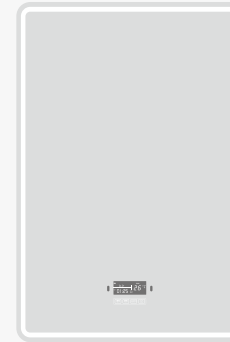

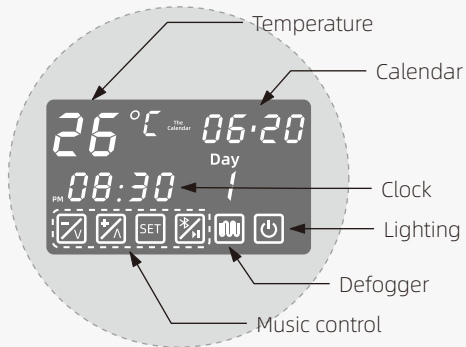

Music screen

Control every aspect and function of your mirror directly on the surface, our Digital Screen options bring custom functions and display essential information, such as:

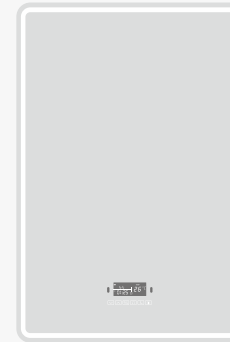

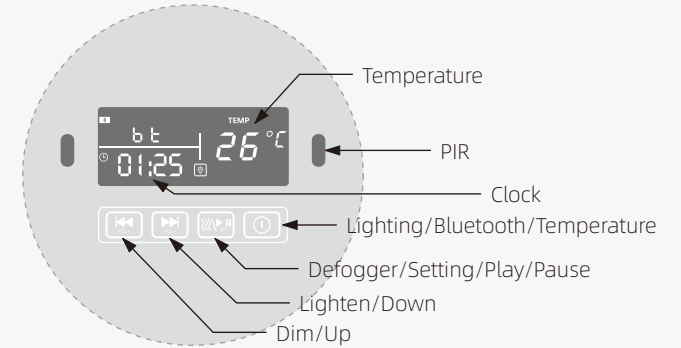

- Turn on/off Demister and Lights
- Digital Clock built-in
- Temperature indicator built-in
- Bluetooth connectivity switch built-in
- Skip songs, control speakers volume.
- Weather forecast and much more!

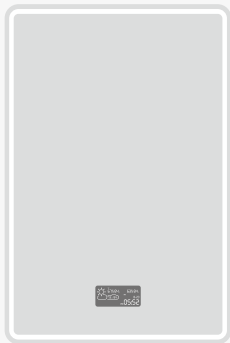

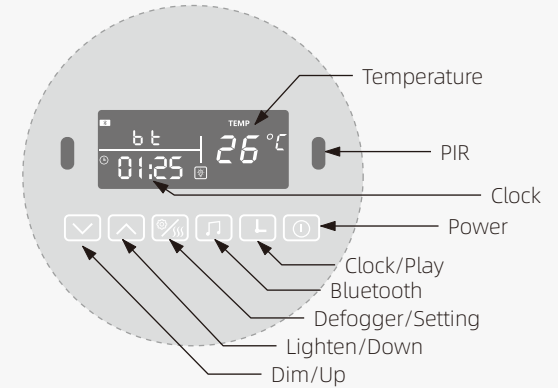

Six-button Bluetooth screen

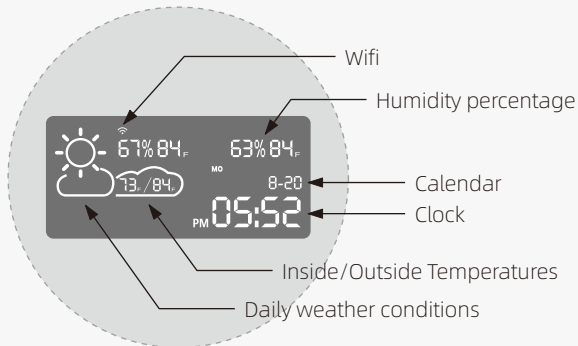

Four-button sensor screen

Six-button sensor screen

The weather WIFI screen

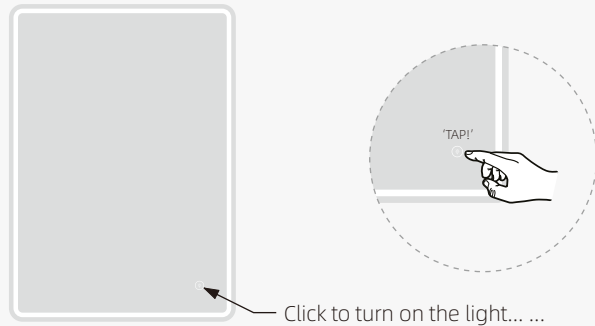

Touch Sensor

Touch sensors are incorporated seamlessly into the glass surface and illuminate when active. Advanced lighting features may be controlled either by additional sensors or simply via one multi-touch sensor.

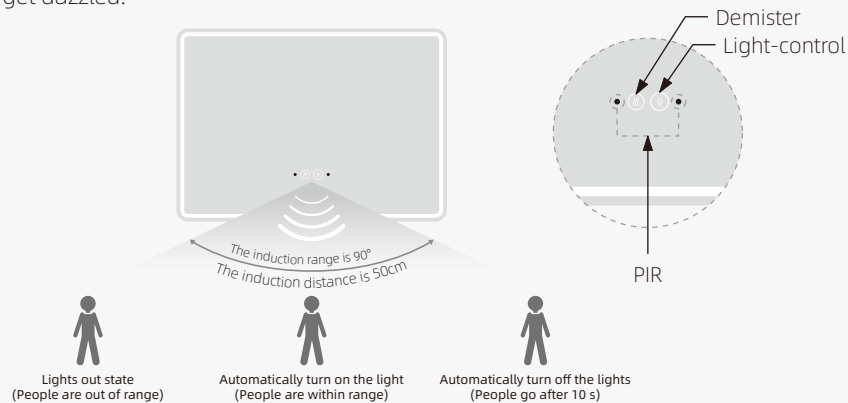

- Seamless design
- Minimal contact
- Simple control
- Multi-functional

PIR Sensor

Activate the mirror by just walking into the room!

Part of our automated bathroom solutions, our PIR sensor knows exactly when you need the lights to turn on and it activates the mirror automatically by gently lighting up the room, this comes specially useful at night when it's harder to find the switches and easier to get dazzled.

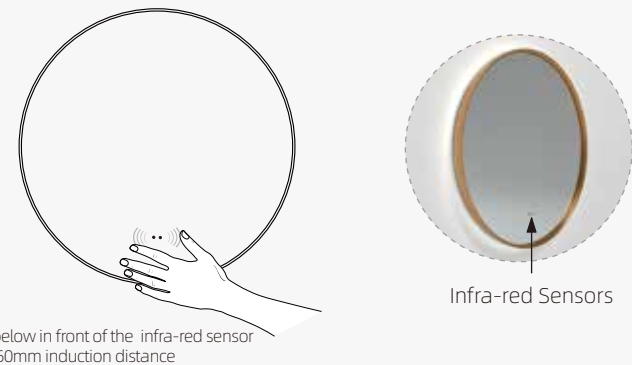

Bottom Infrared Sensor

Infra-red sensors are simply activated by a swipe of the hand. Advanced features, such as dimming and colour control, where available are operated by hovering the hand near the sensor.

Front Hand Sensor

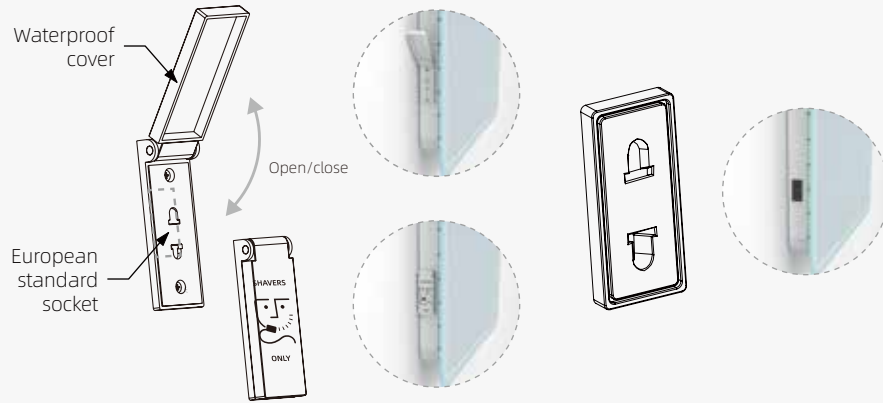

- Naturally increased hygiene in your daily routine through minimal contact and contamination
- Safety near wet zones with no electrical contact risk
- Discreet control allowing seamless appearance in design
- Less cleaning and maintenance - no fingerprints or smears

Shaver Socket

Keep your grooming essentials organized and charged with Yoway mirrors. Our mirrors come with a convenient protective case that houses shaver socket ports and charging sockets for your shavers and toothbrushes.

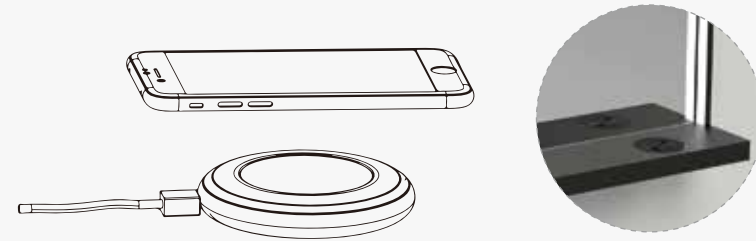

USB/TYPE-C Port

Stay connected and powered up with Yoway mirrors. Whether you need to charge your phone, tablet, or other devices, our mirrors have got you covered. Simply plug your device into the USB/Type-C port and enjoy fast and efficient charging.

Wireless charging

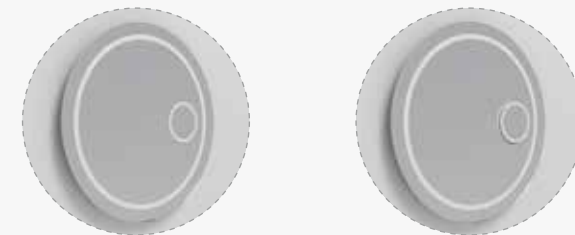

With Yoway mirrors, you can multitask while getting ready. Our mirrors come equipped with a convenient charging feature, so you can charge your phone while you dress up.

Magnifying glass

Experience enhanced visibility with Yoway mirrors. Our mirrors come with two different magnifier options - a fixed magnifier and a suction-type magnifier.

The fixed magnifier is permanently attached to the mirror. Suction-type magnifier can be easily attached and removed from the mirror surface. magnification level as per your needs.
